ABOUT ME

Hi, I'm Prachi Shital Patil. I have completed my Bachelor of Computer Applications (BCA) from Vivekananda College, Kolhapur. Currently, I am pursuing MCA (Sandwich) from D. Y. Patil Technical University, Talsande. I am passionate about becoming a Full Stack Developer and enjoy building real-world projects using modern technologies like React and Node.js. I am always eager to learn, explore advanced tools, and create scalable web applications.
I am seeking an opportunity to apply my skills, gain industry experience, and contribute to an organization's success through an internship or hands-on experience in the IT field.

EDUCATION

BCA
Vivekanand College, Kolhapur (Autonomous)
CGPA: 9.40

12th Commerce HSC
Maharashtra State Board Of Kolhapur
70.83%

10th SSC
Maharashtra State Board Of Kolhapur
84.60%

SKILL

Softskill

- Communication
- Leadership
- Teamwork
- Inovation

Technical Skill

- HTML, CSS
- JavaScript
- Python
- React(Basic)
- WordPress

PROJECTS

Coffee Shop Website
I developed a Coffee Shop Website, a static project using HTML, CSS, and JavaScript. It includes an About Us page, Menu, Gallery, and Services section to showcase food items attractively. The website focuses on a simple and engaging user experience.

Amazon Clone Website
I also developed an Amazon Clone Website, an e-commerce platform with features like Home, Categories, Today's Deals, Product Details, Add to Cart, and Login/Signup pages. It was built using HTML, CSS, JavaScript, and PHP for authentication. The project helped me understand UI design, web responsiveness, and basic backend integration.

Employee Management System
I recently developed an Employee Management System using React, Node.js, and MySQL, enabling employee records management, leave tracking, and salary management.

CERTIFICATE

- I have completed the online UI/UX for Beginners certification from Great Learning Academy, gaining knowledge of UI/UX principles and design basics.

EXPERIENCE

Internship at Menon and Menon Ltd

- During my internship, I worked on more than 30 systems. I automated desktop folder backups using scripting and Task Scheduler, ensuring data security across all systems. I also blocked the Opera website by modifying the hosts file, supporting IT policy compliance. These tasks improved my skills in automation and network security.
